TYPICAL HIGHLIGHTS INCLUDE:

Walk on the Top of Australia / Visit to the Torres Straits

The above itinerary is an example only, weather, loadings, fuel availability will determine the actual route to be flown on the day.

During your journey to the Top we will show you places that are inaccessible by 4WD, places which cannot be seen unless you're in an aircraft. Imagine flying low level along the outer barrier reef, then seeing the estuaries of the Daintree, the Bloomfield, the Endeavour and Lockhart Rivers. Next you're flying over the World Heritage Rainforests, then the beaches of Cape York, then the massive wetlands of the Cape. All passing below you as you sit back in air-conditioned comfort. On the return journey to Cairns we fly high level and weather permitting you will have incredible views of the reefs and Islands of the Great Barrier Reef.

Tour Departs Cairns on demand, from April through to November.
This tour operates subject to weather, routes may change due to prevailing conditions
